

QUOTEITNOW FROM SELECTIVE

MAKING IT EASY FOR YOU TO WRITE FLOOD BUSINESS

At Selective, we understand that writing flood insurance can be a complex process that takes valuable time and resources.

QuoteltNow from Selective is an automated flood quoting tool that allows you to maintain your personal touch with our mutual customers, while saving you time and money by empowering them to start the flood quote process on their own, at their convenience, directly from your website. In just a few simple steps, QuoteltNow walks customers through their flood application up to binding, and directs them to your agency to finalize the process — giving you more time to focus on building customer relationships.

SELECTIVE
BE UNIQUELY INSURED®

A COMPLETE BENEFITS TOOL

When you add the QuoteltNow tool to your agency's website, both you and your flood customers will benefit from a streamlined flood quoting process:

FLOOD CUSTOMERS

- A user friendly platform
- Intuitive questions
- Comprehensive flood coverages
- Flexible deductibles and premiums

FLOOD AGENTS

- Customized quoting solutions
- Unique web banner and URL
- Real-time notifications
- Streamlined flood binding process

GETTING STARTED IS EASY

To sign up and add QuoteltNow to your website today, simply:

1. Email QuoteltNow@Selective.com or complete the [online request](#) form
2. Our Flood Licensing team will verify your agency information
3. And add a custom QuoteltNow web banner and URL to your website

HOW DOES QUOTEITNOW WORK?

1. After a customer completes a QuoteltNow application they will receive a preliminary quote, along with an email directing them to contact your agency.
2. Your agency will then receive a confirmation email with a PDF copy of the quote, and a quote in the "Consumer Direct" queue on your agency dashboard at selectiveflood.com.
3. Lastly, contact your customer to verify the information, and bind the policy.

To start saving time with QuoteltNow's automated flood quoting capabilities, contact us at QuoteltNow@Selective.com or speak to your Flood Territory Manager.
